Hello
October

QUOTE OF THE MONTH

“Many Latino kids should become scientists because we need scientists all over the world from all different backgrounds. We have many tough problems, and we need everybody’s help to solve the problems.” – Mario J. Molina

Latinxs in Sustainability (LIS) is determined to address and reduce the barriers that have led STEM fields, and environmental and climate fields specifically, to be among the least ethnically and racially diverse across all disciplines.

UPCOMING EVENTS

Join us in thought provoking conversations!

Latinxs in Sustainability Present

EQUITY IN THE LATINX COMMUNITY PART II: COVID-19 INEQUITIES

Join Us Thursday, October 28th 6-7:30PM ET via Zoom

EQUITY IN THE LATINX COMMUNITY PART II: COVID-19 INEQUITIES

October 28th @ 6PM EST

Part 2 will include a presentation from Dr. Lupita Montoya to help our community understand the COVID-19 disparities. "Black, Latinx, and Indigenous people in the US are disproportionately impacted by the COVID-19 pandemic, with higher mortality rates, and more economic fallout and educational setbacks for our children." -Dr. Lupita Montoya

UPCOMING EVENTS

Paying tribute to the Latinx trailblazers who have enriched our society.

LATINX HERITAGE MONTH

Trailblazer Spotlight | Thank you to all who submitted!

JOSE TRINIDAD CASTANEDA

Jose Trinidad Castaneda (he/they) serves as an Environmental Commissioner in the City of Buena Park working on building electrification, and was one of the leading organizers in creating the Orange County Power Authority, OC's first Community Choice Aggregation Joint Powers Authority. He also expanded the number of air quality sensors as a South Coast AQMD Young Leaders Advisory Council member, and advocated for sustainable land use as a Planning Commissioner in the City of Fullerton. CHRISTOPHER GALARZA

Chef, Entrepreneur, author, public speaker, podcaster, Chris Galarza is renowned for his work in kitchen electrification and is the Founder and Culinary Sustainability Consultant for Forward Dining Solutions LLC. As the country's foremost expert in commercial electric-kitchens, chef works with manufacturers, brands, designers, and chefs to create lasting sustainable kitchens and culinary ecosystems. Chef has worked on notable projects such as Chatham University's Eden Hall Campus (the world's first fully self-sustained university campus), Microsoft Redmond, and Castilleja All Girls School. NEWS

ESG Today

This week in ESG news: Invesco builds out ESG team as ESG assets surge; financial, industrial and info services leaders join new environmental disclosure initiative; Ford announces massive expansion of US electric vehicle & battery capacity; S&P bolsters ESG capabilities of Capital IQ Pro; HSBC & Temasek launch sustainable infrastructure finance platform; Pandora cuts plastic packaging; GM accelerates 100% renewable energy rollout; regulator says investors interested in ESG investing, but not participating due to greenwashing fears; and more.

McKinsey & Company

McKinsey & Company published "Built to last: Making sustainability a priority in transport infrastructure" on October 1st, 2021. Every year, trillions of dollars are invested in the infrastructure that helps us—and our goods—get around. What will it take to move the transport infrastructure industry toward carbon zero?
